KING COUNTY MARRIAGE LICENSE REGISTERS VOL 5-10, 1889-1895

The data was compiled from the Marriage License Registers held by the Puget Sound Regional Branch of the Washington State Archives. In most cases a marriage followed in King County, sometimes on the same day. However, the license was valid anywhere in the Washington probably for quite some time. If a marriage record is not found in King County, one should check the register for a possible notation of another county.

Also, it is possible there was no marriage. One party may have had a change of mind. Or parents may have interfered.

One tries to be accurate, but sometimes handwriting is not clear or some letter formation not recognized. Capitals S and L are similar, u, n and r can be nearly identical, and vowels a matter of decision. Then there are typos. Also, an occasional "gremlin", where data gets confused, e.g. John Doe may be marrying himself.

Residence applies to the person to the left of the Residence column. United States Postal Service abbreviations were used for States and Canadian Provinces.

Add WT for Washington Territory before statehood in 1889.	
CND for Canada	JPN for Japan
ENG for England	SCT for Scotland
GER for Germany	SWE for Sweden
IRL for Ireland	

Sometimes abbreviations were forced by space allotment, usually by closing spaces and eliminating vowels.

Some places have been absorbed by larger cities, particularly Seattle. Then there are name changes. Gilman is now Issaquah, Tolt became Carnation, Sedro and Woolley combined with a hyphenated name. Bellingham was created from Sehome, Fairhaven, Whatcom and New Whatcom.

(Reference: PHILLIPS, James Wendell, WASHINGTON STATE PLACE NAMES, University of Washington Press, 1971.)

My thanks to the Archivist, Michael Saunders, and the staff at the Puget Sound Branch of the Washington State Archives for the use of the record books, and their patience and assistance during the many hours spent abstracting the data.
