PREFACE

The material presented in this book was copied very carefully from the license and marriage record ledgers on file at the King County Court House in Seattle, Washington, by TO al members of the Seattle Genealogical Society. When both the license and marriage return or record was found they were added "THOSE WHOM GOD HATH JOINED TOGETHER"

It is to be noted that in a few records there are very obvious differences in the spelling of given names. We Humbly Dedicate this Book to which might be ascribed, but rather than responsibility is left to the family researcher. All names are given in the order in which they appear in the Court records.

In respectful memory to the Pioneer Families of the Pacific Northwest the names are arranged in alphabetical order and other names are given in the index.

A list of the officiating Justices, Ministers, etc. will be found on pages 86 and 87. Also presented is the Church affiliation of the Minister when known. This information does not appear on the marriage records except in a few cases. It is hoped this may be a helpful and worthwhile addition to these records.

Beginning on page 88 will be found records obtained from the early Methodist Church in Seattle. These have been included because they give some additional information not found in the Court records. It is to be regretted that marriage records of the other early Churches are not available for inclusion in this work.

PREFACE

The material presented in this book was copied very carefully from the license and marriage record ledgers on file at the King county court house in Seattle, Washington, by several members of the Seattle Genealogical Society. When both the license and marriage return or record was found they were consolidated for easy reference.

It is to be noted that in a few records there are very obvious differences in the spelling of given and/or surnames. No attempt has been made to say which might be correct, but rather that responsibility is left to the family researcher. All Chinese names are given in the order in which they appear in the Court records. The bridegrooms' names are arranged in alphabetical order and other names are given in the index.

A list of the officiating Justices, Ministers, etc. will be found on pages 86 and 87. When possible the Church affiliation of the Minister has been included. This information does not appear on the marriage records except in a few cases. It is hoped this may be a helpful and worthwhile addition to these records.

Beginning on page 88 will be found records obtained from the early Methodist Church in Seattle. These have been included because they give some additional information not found in the Court records. It is to be regretted that marriage records of the other early Churches are not available for inclusion in this work.
