However, most of the records were divided and stamped with King County, at the lower left of the form. Some forms were noted with a different county name, and that is probably where the marriage certificates could be found.

Following the main index, is a list of the "books that the 'Fee for Recording Certificate paid County' area noted other counties, or was blank.

Errors do occur. My apologies for any misspelling or for attaching some information to the wrong record. Some data was questionable, (e.g. San Francisco, San Jose, Obispo and Santa Barbara, WA.)

The United States Postal Service abbreviations for States and Canadian Provinces were used. CND = Canada, JAP = Japan, AUT = Australia. Other abbreviations were either on the records or forced by space allotment, usually by closing spaces, or deleting vowels.

An asterisk after the surname indicates a consent form for an under age person was attached.

My thanks to the Archivist, Michael Saunders, and his assistants, Deborah Kennedy, Phillips Stairs, and Elizabeth Stead at the Puget Sound Branch of the Washington State Regional Archives for their patience and assistance, during the many hours I imposed on them.

KING COUNTY, WA MARRIAGE LICENSE REGISTERS VOL 38 AND 39

King County changed the system of recording marriage licenses in September of 1917. In the process, the index to the last half of Volume 38 and all of Volume 39 was not archived with the books. Originally, the project was to replace only the missing index, then was expanded to include all of Volume 38. The residence was included due to the number of persons not living in King County, some far away.

The issue of a marriage license does not mean the marriage followed immediately, or that it occurred in King County, as the license was valid anywhere in the State of Washington. Or perhaps there was no marriage.

However, most of the records were dated and stamped with King County, on the lower left of the form. Some forms were noted with a different county name, and that is probably where the marriage certificate could be found.

Following the main index, is a list of the records that the "Fee for Recording Certificate paid County" area noted other counties, or was blank.

Errors do occur. My apologies for any misspelling or for attaching some information to the wrong record. Some data was questionable, (e.g. San Francisco, San Luis Obispo and Santa Barbara, WA.)

KING COUNTY, WA MARRIAGE LICENSE REGISTERS VOL 38 AND 39

King County changed the system of recording marriage licenses in September of 1917. In the process, the index to the last part of Volume 38 and all of Volume 39 was not archived with the books. Originally, the project was to replace only the missing index, then was expanded to include all of Volume 38. The residence was included due to the number of persons not living in King County, some far away.

The issue of a marriage license does not mean the marriage followed immediately, or that it occurred in King County, as the license was valid anywhere in the State of Washington. Or perhaps there was no marriage.

However, most of the records were dated and stamped with King County on the lower left of the form. Some forms were noted with a different county name, and that is probably where the marriage certificate could be found.

Following the main index is a list of the records that the "Fee for Record-ing Certificate paid County" area noted other counties or was blank.

Errors do occur. My apologies for any misspelling or for attaching some information to the wrong record. Some data was questionable, e.g. San Francisco, San Luis Obispo and Santa Barbara, WA.

The United States Postal Service abbreviations for States and Countries were used. CHD = Canada, JAP = Japan, AUS = Australia. Other abbreviations were either on the record or forced by space limitation, usually by closing spaces or deleting vowels.

An asterisk after the surname indicates a consent form for an under age person was attached.

My thanks to the Archivist, Michael Saunders, and his assistants, Deborah Kennedy, Philip Starr, and Elizabeth Steward at the Puget Sound Branch of the Washington State Regional Archives for their patience and assistance during the many hours I imposed on them.

KING COUNTY, WA MARRIAGE LICENSE REGISTERS VOL 38 AND 39

SUPPLEMENT

The following pages are of records that indicated a county other than King, (see example below) or the lower left area of the form was blank. It is probable that, where there was no notation, the marriage was in another county and some human(s) failed to report or record the information. If there was no marriage, at least there is evidence that the people were there at the time the license was issued.

The format of the listing is different in order to include the name of a county or "----", if blank. Further, it is not cross referenced to index both parties.
